Sphere Medical exhibiting at SIVA UK

26 September 2011: Sphere Medical will be exhibiting its Pelorus 1000 propofol measurement system at the UK Society for Intravenous Anaesthesia (SIVA UK) annual scientific meeting. The conference will take place on 24 – 25 November 2011 at the Army Medical Directorate, Sandhurst.

SIVA UK promotes education and facilitates research into the use of drugs administered intravenously in anaesthesia and related science areas. For more information, visit www.sivauk.org

About Sphere Medical

Sphere Medical is developing highly innovative monitoring products to provide clinical and economic benefits in the critical care environment, based on the company's proprietary microsensor technology. The products allow minimally invasive, real time measurement of clinical chemistry parameters and therapeutic drug concentrations, giving healthcare professionals the information they require to more effectively manage therapy and optimise patient outcomes. Sphere Medical was founded in 2002 and is based in Cambridge, UK.
